## PROJECTS

**Weather-or-Not | github.com/mchisem/Weather-or-Not | https://mchisem.github.io/Weather-or-Not/**
- Description: An app that helps users find events based on their location and weather conditions.
- Responsibilities: Collaboratively made AJAX calls to Eventful and Open Weather API, traversed the data needed from the API responses and appended the data to the screen using javaScript and jQuery.
- Tools / Languages Used: HTML, CSS, JavaScript, jQuery, Eventful API, Google Maps API, Open Weather API and Materialize CSS framework for styling.

**CoFit-19 | https://github.com/elliotfouts/project-2 | https://guarded-beach-20937.herokuapp.com/**
- Description: A fitness tracker app that will allow the user to keep track of their nutrition, calories, macros and bmi while staying-at-home due to the COVID-19 pandemic.
- Core Responsibilities: BMI calculation and functionality, styling and building BMI Calculator page, AJAX call to Nutrionix and appending results of nutritional value of entered food to screen.
- Tools / languages used: HTML, CSS, JavaScript, jQuery, Node.js, MySQL, Passport, Nutrionix API, and Pure CSS framework for styling.

**ClubHouse | https://github.com/AshleyNicole/ReactProject3 | https://serene-sea-67556.herokuapp.com/**
- Description: A social media application that allows users to choose between either playing one of the selected games or interacting with friends through chat.
- Core Responsibilities: Chat application and functionality, tic-tac-toe game functionality and styling the page, assisted in styling and building enter chat page, chat app page and dashboard page for games.
- Tools / languages used: React.js, JSX, CSS, Socket.io, Nodemon, Express, MongoDB and React-Bootstrap for styling.

## EXPERIENCE

**STS-Education**                                                                                          2020
*Computer Technician (Temporary)*                                                        Simi Valley, CA
Auditing Chromebooks, CPU's and Ipads for defects. Entering information such as serial numbers, model numbers, hard-drive capacity and ROM information into Microsoft Excel spreadsheet. Processing and imaging Windows 10 into Chromebooks, laptops and CPU's.

**Target Corporation**                                                                              2019 -2020
*Inbound Overnight Stocker (Seasonal)*                                          North Hollywood, CA
Executed a detailed, accurate and efficient sorting operation in a fast-paced environment. Stocked, backstocked and zoned products on the sales floor; worked with accuracy and attention to detail.

**Los Angeles Unified School District** 2013 -2019
*Substitute Teacher (2018-2019)* San Fernando Valley, CA
Reviewed and taught lesson plans for the day. If no plans were available, determined areas currently being studied and the activities to be pursued, accounted for pupil attendance as prescribed by the school.

*Special Education Assistant (2013 -2018)* San Fernando Valley, CA
Enforced discipline and conducted tutoring for students with disabilities. Assisted teachers in implementing lessons, checked accuracy of work, and adjusted or rephrased portions of text and classroom instructions.

*Teacher Assistant (2010 -2013)* Canoga Park, CA
Instructed students-from Kindergarten to the fifth grade in an RTI (Response to Instruction) format, analyzed student progress, collaborated with TA's to design lesson plans and assisted leadership with school events.

*Shipping Receiving Clerk (2006 -2010)* Northridge, CA
Shipped and received books using FedEx and UPS systems, paid and adjusted prices on invoices, took inventory, restocked books/merchandise and entered inventory/pricing into the computer system.
